

SKB2C01

HELICOPTOR STRETCHER

SKB2C01

FEATURES AND HIGHLIGHTS

Technical parameters

▪ External Size (LxWxH)	2180×620×180 mm
▪ Self Weight	18kg
▪ Load Bearing	300kg

Technical configuration

<input checked="" type="checkbox"/> Fix Belt	3pcs
<input checked="" type="checkbox"/> Hanging Belt	1pc
<input checked="" type="checkbox"/> Foot Fixator	1pc

Material

The body is made of non-toxic and pollution-free ABS material, which is light, pressure-resistant, easy to clean, fire-resistant, wear-resistant and corrosion-resistant.

Design

The structure of the stretcher focuses on the universality, flexibility and particularity of first aid, such as rescue in rugged mountains, air or sea. The frame is strong and durable, and the simple and reliable device enables the operator to take emergency measures safely and quickly.

Handle

The structure is made of reinforced aluminum alloy tube, with many arc-shaped smooth handles, which is convenient for many people to lift up in the process of use; metal fasteners are set on both sides of the stretcher, which can be used together with nylon fasteners.

Function

The suspension hook can be connected with the hook on the aircraft. Specially designed for field rescue.

Foot Fixator

The stretcher is equipped with adjustable foot fixator, which can be adjusted according to the height of the wounded.

Fix Belt

This product is equipped with three bandages as standard.

Hanging Belt

The optional kit includes neck bracket, head immobilizer.
